Dear City of Sebastian:

It is with great confidence that we are recommending M&R Engineering, Inc. for Continuing Professional Planning Services for the City of Sebastian. We have personally worked with Lymari Merheb, P.E. of M&R Engineering for both our own projects and our clients' projects. She is very thorough with every project that we have worked on with her.

Ms. Merheb is knowledgeable and has the experience and expertise with Land Development Code requirements and civil permits. She consistently provides us with professional and timely service. She has very good communication skills and always keeps us abreast of the progress of our projects. We have been very impressed with M&R Engineering and the services that the company always provides us.

Thank you for giving us the opportunity to strongly recommend M&R Engineering, Inc. for the City of Sebastian. Please feel free to contact us at your convenience if you have any further questions.

Sincerely,

Re: M&R Engineering, Inc. Services

To whom it may concern,

Please note that M&R Engineering, Inc. has performed work for the DDC Engineering, Inc. as a civil engineering sub-consultant for the past 2 years on various projects. As the project manager for these projects it should be noted that this firm (M& R Engineering) has met not only the project deadlines for construction completion but has maintained within the projected cost allocated for these projects. Their construction drawings typically produce good competitive bids for the client with little or no construction dollar increases due to drawing omissions or errors. If further information is required in regards to this firm please do not hesitate to call.

Sincerely,

A handwritten signature in dark ink, appearing to read 'D. DaSilva', with a long horizontal flourish extending to the right.

RE: Letter of Reference: City of Sebastian
Professional Planning Services

Dear Ms. Merheb:

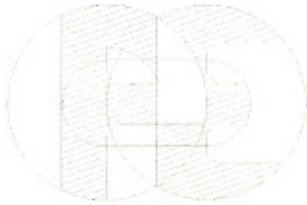

I am very pleased to offer this letter of recommendation and reference to M & R Engineering in support of their response to a Request for Qualifications for Professional Planning Services.

As a client of my firm since 2006, M & R Engineering, Inc. has provided professional services in support of Site Planning, Engineering, and Stormwater Management Design services. These services have been in support of commercial subdivisions, commercial site plans, and residential subdivisions. I can attest to their thorough knowledge and skills in local land development codes, zoning, and civil engineering codes and standards related to land development. Additionally, M & R Engineering has been highly flexible to provide quick turnaround when needed and are very professional and easy to communicate with. I would highly recommend them to the City of Sebastian Growth Management Department to provide planning and engineering review of site plans and subdivisions.

I welcome any of your prospective clients to contact me directly if further information is requested. I may be reached at 772-581-5623.

Sincerely,

Martha S. Campbell, P.E.

Re: Letter of Recommendation for Lymari Merheb, P.E.

To whom it may concern,

Lymari has worked with me on multiple projects for approximately eight years, both as a colleague under the same company and as an associate while working independently. During this time she has demonstrated impeccable professional ethics while focusing on a high quality product. Her genuine concern over client project requirements while strictly adhering to codes and regulations shows the flexibility necessary for successful project management and design.

Lymari's professionalism while interacting with the client blends with her gregarious demeanor quite well, making the often difficult project design process enjoyable; she would be an asset on any design team.

It is with enthusiasm that I recommend Lymari for any design related endeavors. Please contact my office for further details.

Sincerely,

Michael Pilo, PE

To Whom It May Concern:

As an office and architect for The Caribeño Architectural Group, Inc., I would like to recognize and recommend M&R Engineering Inc. for the high quality services provided in civil engineering, land development design and permitting. Their performance exceeds our expectations by providing quality engineering services; thus contributing to our own company's success.

Our professional relationship with Lymari L. Merheb, PE, and as President of M&R Engineering, Inc. extends to the past four years collaborating in commercial and residential projects in Central Florida including Brevard and Indian River Counties. These projects required a combination of tasks including due diligence, conceptual layouts, civil engineering construction design and civil permits.

Their team always works seamlessly with our group and is a pleasure to work with. They also maintain diligent interaction and organization in every project performed. Therefore, I highly recommend M&R Engineering Inc. for your consideration.

Sincerely,

Kenneth R. Lebron, R.A., A.I.A

Re: Weather Doppler System, for 45 Space Wing, Patrick AFB, located in Orange County, FL.

The Purpose of this memorandum is to thank you and your project team for the superior support provided start to finish on this project. The leadership provided by M & R Engineering proved to be invaluable in bringing this project in on time and within the budget.

The close coordination provided by M & R Engineering with Orange County Building Department, 45 SW Civil Engineering and ITT Engineering was a significant element in making this project successful.

Once again, thank you for your support.

Michael F. Constantine
